

Dolce Fresca Basil

GROWING REQUIREMENTS

Soil: Fertile, pH 6.0 - 7.0

Water / Sun: Regular / Full sun

Other Notes: About 10-14" tall

PLANT DESCRIPTION

These compact plants have dark green, glossy leaves that are sweet and fragrant for delicious pesto or caprese. The stems resist stretching, which means more foliage in a handsome, mounding form. Reluctant to flower, the plants spend their energy producing leaves for continuous harvest until very late in the season.
