

# Golden Calwonder Pepper

## GROWING REQUIREMENTS

---

**Days to Harvest:** 72 days

---

**Soil:** Fertile, well drained  
pH 5.5 – 6.8

---

**Water / Sun:** Keep soil moist

---

**Sun:** Full sun

---

## PLANT DESCRIPTION

---

Very similar to California Wonder, except that its smooth, glossy fruits ripen to a beautiful, golden-yellow. Adds rich color to salads and dishes. Fruits are medium-sized, 4 in. x 4 in., 3 to 4-lobed, smooth and blocky. A nice stuffer, with high yields, on 28 in. tall plants.
